10 SECOND OVERVIEW

» NGS service provider for all NGS applications including
   Genome sequencing
   Transcriptome sequencing
   Targeted resequencing
   Amplicon sequencing

» Easy online ordering and tracking
» ISO 17025 accredited lab and GCP/GLP compliant
» Eurofins was the first service provider to offer NGS services

**BUILT FOR YOU**
Pre-designed and validated

**INVIEW**
- Tailored sequencing solutions for every application
- Perfect combination of sequencing depth and bioinformatics analysis
- Flexible sample input
- Often two options: screening or high depth product available

**Highlights:**
- INVIEW Microbiome Profiling 3.0
- INVIEW Transcriptome
- INVIEW Resequencing
- INVIEW Exome

**NGSelect**
- Scalable data output, starting from 5M read package
- Applicable to any organism from prokaryotes to eukaryotes
- Available for DNA, RNA, amplicons and samples for DNA/RNA extraction

**BUILD YOUR OWN**
Flexible modules for custom solutions

**Customised Solutions**
- Dedicated NGS project managers design the perfect layout with you
- Sequencing under GLP/GCP or ISO17025 conditions

---

**DID YOU KNOW THAT...**

...A typical book has ~ 250 pages with ~ 400k characters (= bases)

...7.500 books correspond to the size of the human genome (3 Gb)

...Reading 100 books a year, 75 years are needed to read the entire human genome sequence 1x

...NovaSeq 6000 can read 33 genomes with a coverage of 30x in less than 2 days.
